# Wedding Apps You'll Love!

## The Knot Wedding Planner

This app is a complement to the website and catalog, which features a helpful checklist and a directory of local wedding vendors.

## Wedding Party

Connect with all of your guests, share photos, and keep them up-to-date with messaging with this do-it-all app.

## Flickr

A photo app with a clean, modern interface, I use Flickr exclusively to archive and share your wedding photos with you.

## WedPics

This app is a fun, easy - and free! - way for guests to share their photos and videos of your wedding. It includes trendy filters.

## Mmm... Cake!

Trends in wedding cakes come and go. What doesn't change is the need to have beautiful, tasty dessert for yourself and your guests. The classic stacked wedding cake never goes out of style. However, the relatively recent presentation of cupcakes has made the reception hipper and easier for involved guests to grab a bite before heading back to the dance floor. You can also have the best of both worlds by providing cupcakes to your guests, while sharing a cake with your bridesmaids and groomsmen. You'll also have a cake top for your 1st anniversary!

# F.A.Q.

## **How would you describe your style?**

*It's a little bit of everything. As a wedding photographer, it has to be. While the photojournalistic approach captures those precious candid moments, having the knowledge of studio portraiture and lighting will produce those beautiful, timeless portraits you'll cherish forever.*

## **Are guests allowed to take pictures with their cameras?**

*Absolutely! Guests are encouraged to capture as many memorable moments as they can. However, I ask that during the formal shots and other important events (the vows, kiss, cake cutting, first dance, etc.) that guests respect my services and not get in the way. Other than that, they can shoot away!*

## **Do we keep the digital image files?**

*Yes. Every couple receives discs containing the edited 'proofs,' as well as all the original high resolution images from their wedding day. No watermarks. No printing restrictions. Print whenever you want, wherever you want.*

## **How many photos do you usually take?**

*Anywhere from 800 to 1200, depending on the package. And you get everything.*

## **How long before we receive our completed wedding package?**

*Usually four to six weeks after your wedding date. (Custom-designed wedding books take longer.)*

## **Do you provide an online gallery to share with friends and family?**

*Yes. You'll receive a link to your private gallery and you can share it with anybody. Your friends and family can view photos of your wedding day as a slideshow or individually, and even download and print their favorites right at their computer. After all, the pictures are paid for... I just make it easier for you to share them.*

## **Do you have backup equipment, just in case?**

*Absolutely. When you hire a professional to document your wedding day, you'll never have to worry about losing important memories due to equipment failure.*

## **Do you travel outside of the Pittsburgh area?**

*Yes. Distances beyond 50 miles from Pittsburgh are subject to additional travel fees, and a hotel stay over 100 miles.*

## **Do you travel for destination weddings?**

*Yes. Please contact me for a custom travel quote.*

## **How soon should we book?**

*As soon as you can. I typically book 12 to 18 months in advance, and shoot 15-20 weddings per year. Saturdays in May through October are the most popular dates, and they go fast. Please contact me about your date's availability here.*

## **With every package, you provide a wedding album with 200 prints. Can we pick the photos?**

*Unfortunately, no. Think of it in terms of a traditional photographer's proof book. I want you to have pictures right away so you can show them to family and friends. It takes a while for clients to look through all the photos on the discs, so in order*

*to expedite the process, I print the very best photos and provide them with a complimentary wedding album. It's basically a proof book they keep. They then have the opportunity to print more on their own afterward from the discs.*

## **Do you offer those 'coffee table' style books?**

*Yes. I offer several unique book options at a range of prices.*

## **Do you work digitally or with film?**

*I'm 100% digital. Film is very limiting... and expensive for both the photographer and the client. I predominantly use Canon equipment.*

## **Do you eat at the reception?**

*Yup. Since I'm with you all day, I'm on your schedule, and I get kinda hungry running around snapping all those shots. Please add me and my co-photographer to your list. We'll have the lobster (just kidding).*
